

# STITCH™

INTEGRATE

TARGET

ENHANCE

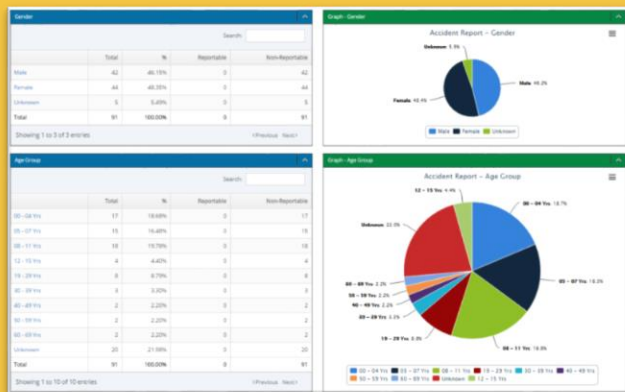

IMPACT

## THE LEISURE MANAGEMENT ACCIDENT ANALYSIS

STITCH has been developed as an innovative online platform that captures, collates and aggregates accident, incident and near miss data. STITCH provides accurate, easy to use live reporting of all accidents, incidents and near misses within a single system.

## STITCHING ACCIDENTS TOGETHER TO FIND TRENDS

STITCH can be used to provide clear accident performance in any selected period with additional filters and functions

## FEATURES

### ANALYSIS AND GRAPHS:

- Visual and Graphical presentation of accident performance in any selected period
- Accident, Incident and Centre Specific Reports with detailed filters

### DATA ENTRY:

- Easy, trouble free implementation with minimal user training
- Accident, Incident and Near Miss Data Entry
- Email notifications

### BENCHMARKING:

- National Benchmarking figures are available for comparison reports, including customer footfall and staff hours worked to accident ratios

## BENEFITS

- Live snapshot of KPIs, allowing monitoring of accident trends and 'hotspots' to review avoidable accidents and near misses.
- Central, comprehensive and permanent record including photographs and supporting evidence and documentation increasing your ability to defend civil claims and criminal proceedings.
- STITCH provides a straightforward, easy to use process for recording occurrences and enables Management to address particular risks and prevent further occurrences.

The screenshot shows a detailed accident report form with sections for 'Company Property', 'Preventative Action', 'Action Taken', 'Question 1 - Was the accident RIDDOR reportable?', 'Question 2 - Which of the following actions has been taken?', 'Question 3 - Please fill appropriate boxes if this', 'Outcome', and 'Linked Documents and Photos'. The form includes various checkboxes and text input fields for recording accident details and actions taken.

## Right Directions

quality and safety

Right Directions. Providing dynamic, realistic and user friendly Quality Management and Health & Safety Support and consultancy services to a variety of sectors including Sport and Leisure
